

CANADIAN ENGINEERED WOOD PRODUCTS

LUMBER TRADER/BROKER

CANADIAN ENGINEERED WOOD PRODUCTS LTD., is searching for an experienced Lumber Trader/Broker to join our tenacious group. We currently have 4 offices in Canada and 4 major inventory locations across Canada and the United States, both office and inventory locations seeing exponential growth over the past few years. As the latest member to join our dynamic group, you must be self-motivated as you will enjoy the opportunity to work remotely, or out of one of our office locations.

Responsibilities:

- Daily communication with your client base, advising on market updates, current lumber trends and product offerings
- Sourcing and quoting customer inquiries
- Corresponding with and purchasing from manufacturers
- Generating market reports
- Working closely with other traders to strategize and initiate marketing plans
- Sourcing and developing new clients

Qualifications:

- Minimum of 3 years in the lumber trading industry
- Have a strong portfolio, and are actively trading or working towards establishing your clientele
- You must be self-motivated and directed as you will be provided with a great deal of autonomy in your role for your day-to-day trading activities.

We offer a very generous compensation package that consists of a salary with bonus potential and extended benefits. A monthly car allowance, cell phone, and all work related expenses are covered by the company.

If your skills and qualification are in line with those listed above, come fill out our on-line application form, and upload your resume and cover letter at CEWP.ca/careers:

**Attn: Murray Vogt CPA, CMA, Chief Financial Officer
Canadian Engineered Wood Products Ltd.**

We thank all applicants for submitting their application, however, only those selected for an interview will be contacted.
